

Overview of Shock Responsive Humanitarian Cash Transfers

Delivering HCTs through Government Systems: A Snapshot

The HCT Intervention

- Targeting vulnerable IDPs in **Amhara** and **Afar** (conflict affected), **Gambella** (flood-affected), **Oromia**, **SNNPR** and **Somali** (drought-affected)

Reach to Date

- From Sept 2021 to March 2022, **49,487** IDPs in four regions (Amhara, Afar, Gambella and Oromia) have been reached with HCTs – currently expanding to **SNNPR** and **Somali**

Cash +

- Mobilizing **Social Workers** for case management and GBV)
- Opportunities for further cross-sectoral collaboration and complementary cash approaches (e.g. **PLW** in Oromia through **health posts/centres**)

Collaboration

- **MoWSA/Regional Bureaus; BoF, DRM and BoH**
- **Ethiopia Cash Working Group**

On-track to reach over **85,000** IDPs by end April 2022

Objectives

-
- Contribute to household **food and nutrition security**, and ensuring basic non-food items are covered
 - Provide **case management** and **psychosocial support** for separated/unaccompanied/orphaned children through the **social workforce**
 - Ensure linkages with existing **social services** were available

Targeting and registration

- Targeting and registration conducted by govt. counterparts (BoWCSA, Regional DRM, BoFEC)
- At IDP sites / host communities, **Selection committees** and **Appeals Committees** established or strengthened

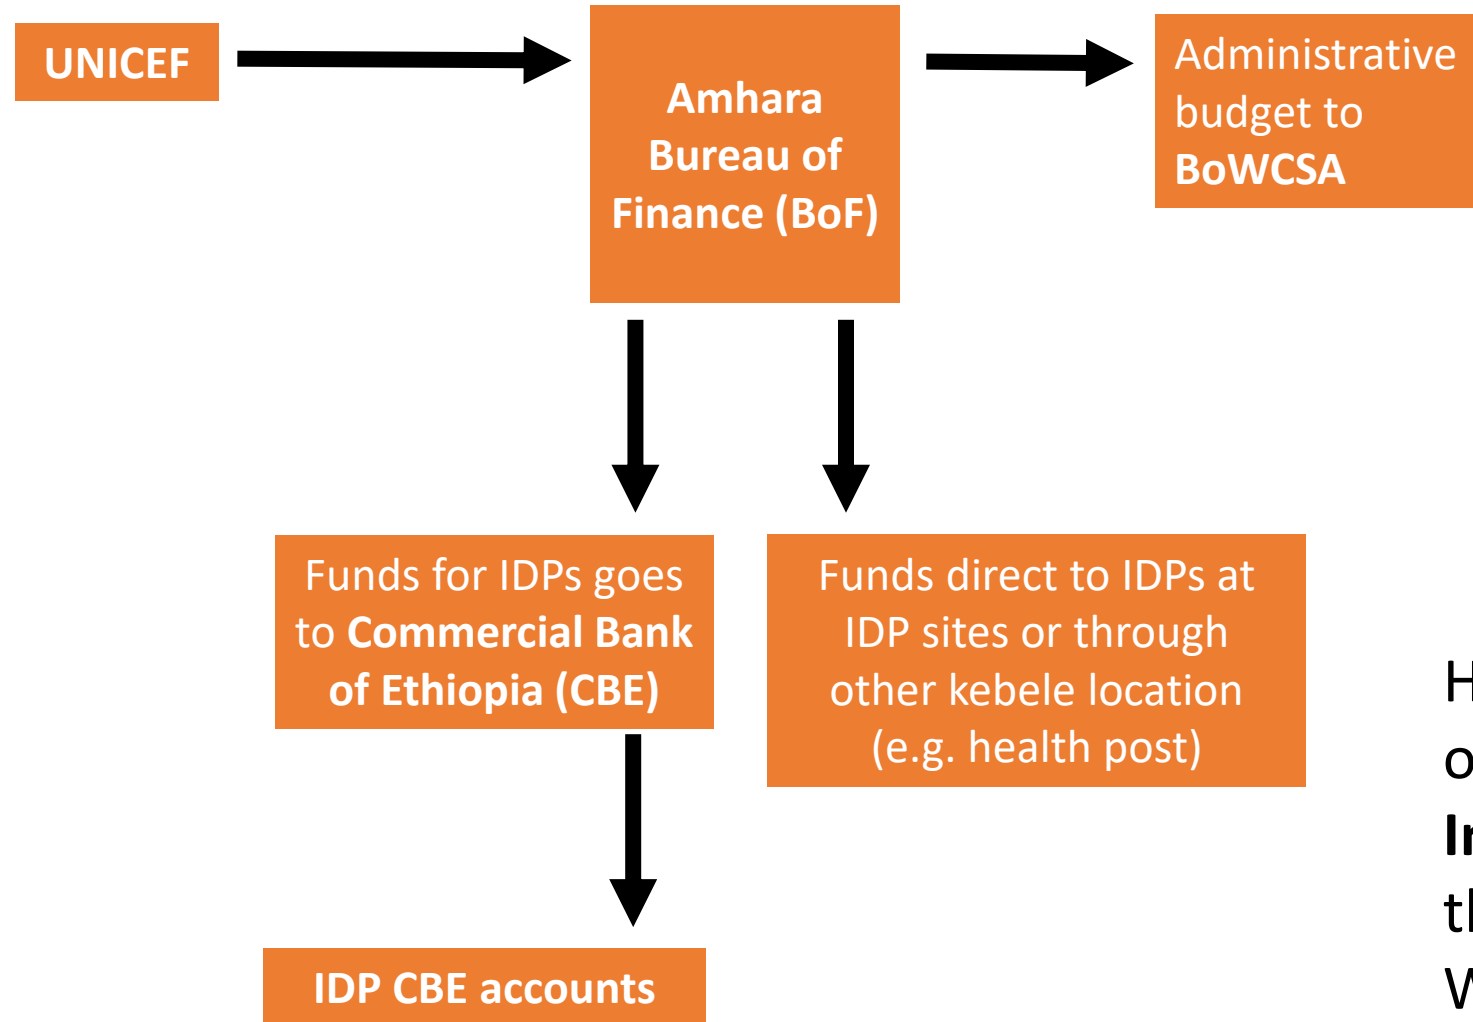

Vulnerability targeting –
Amhara and Afar

Blanket coverage of IDP
sites in Somali

All PLWs in Oromia and
SNNPR

- Piloting **digital registration** in Amhara

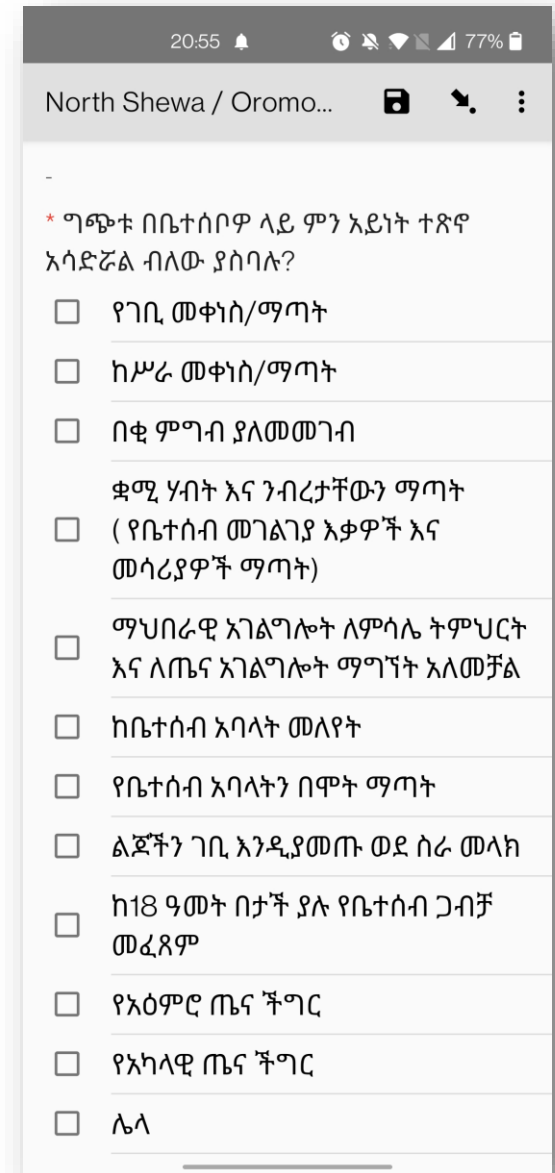

Fund flow

HCT value = varies, but is based on the **Joint Market Monitoring Initiative (JMIMI)** Food Basket through the National Cash Working Group

Post Distribution Monitoring

- **Post distribution monitoring (PDM)** survey conducted with sample of IDP HHs via mobile phones using **KoboCollect** application
- KoboCollect configured to the MoWSA federal-level server, so all surveys and registration should use the dedicated URL (<http://kf.molsakobo.et/>) to ensure data is managed within the government system.
